HSBC Supports Development of Nature Explorium. A \$7,500 grant to the **Middle Country Library Foundation** will be used to develop a Nature Explorium at the Library – a 5,000 sq. ft. outdoor learning environment targeted to preschool and elementary school age children and their families. The Explorium will promote a direct experience with nature for children through hands-on outdoor activities and areas for climbing and crawling, art, music, performance, reading, planting, and much more.
